World's first Freestyle Motocross Coaster

# DYNAMIC ACCELERATION FOR MAXIMUM AIRTIME

## SPIKE® AIRTIMER

For off-road competition, we developed an interactive motocross variant based on our SPIKE® Airtimer. Now it is not just about the best lap times, but also the the airtime intensity is recorded! During the jumps, the LED running light activates on the supporting arch. Starting lights, finish line, curves near fans and rich sound make the experience perfect. A special feature in the SPIKE® App automatically presents an award to the winner of the day with the most spectacular jumps.
