

MAURER

Maurer Rides certified maintenance and service technician

**Training Seminar of qualified specialist staff for admittance of execution of
annual inspections for the whole vehicle and locking system
at your ride Wild Mouse at our plant in Munich**

Scope of Training:

- Theoretical training
- Practical training at an original vehicle (disassembly from complete vehicle)
- Reassembly of the parts and function test at an original vehicle at test track
- Certificate as qualification confirmation
- Food supply (5 x lunch)

In detail we explain and train:

- Annual inspection of car locking system
- Assembly and disassembly of axles, wheel housings, lap bar, wheels, brake fin, support roller, unlocking system, pickups and switches, function chain hook and backstop.

The following item is not included in the price:

- Travelling expenses and accommodation

Training time: to agreements

Training period: approx. 35 hours (4,5 days)

Training costs: feel free to order an individual offer from us

The training is carried out by Maurer Söhne only in the plant at Munich. The training is person-related and not transferable. Trained persons are authorized to carry out the annual inspections at the Wild Mouse car demanded by the security services independently.
